L-ite^{Plus} LCR

Three-in-one Sound Bar Loudspeaker System

The Quad L-ite, a 5-Star Awardee of What Hi Fi? Sound and Vision, was the very first 5.1 channel compact cinema system ever introduced by Quad, utilising the same unique technology and style of the world-famous Quad L Series, but in a more compact size. And to better complement flat panel displays and various types of home environment, Quad introduces its newest addition to its series of high performance loudspeaker systems, the Quad L-ite^{Plus} LCR.

The Quad L-ite^{Plus} Sound Bar is a perfect system for those who prefer convenience and simple, bold design over full-sized AV systems with separate speakers. The Sound Bar can be conveniently mounted horizontally below or above your flat panel HDTV via the key slots at the rear of the speaker cabinet. Boasting a two-way Kevlar-cone shielded 10cm bass driver and a 25mm high frequency dome tweeter for each channel, plus magnetic shielding and biwiring, the Quad L-ite^{Plus} LCR is guaranteed to offer a solidly detailed performance regardless if it is simply used as a 3.1 channel system or matched with the L-ite satellite speakers and subwoofer to create a 5.1 system. Each LCR speaker channel works via separate input terminals and is ready for multi-channel amplifier output connections.

True to Quad's traditional, high class build quality, this distinctively modern system maintains the seven-layer piano gloss lacquer applied individually by hand, made famous by its predecessors, making it one of the most desirable systems in its class.

SPECIFICATIONS

Model	LCR-L	LCR-C	LCR-R
Format	Sealed, 2-way	Sealed, 2-way	Sealed, 2-way
Bass-Mid Driver	100mm	2x100mm	100mm
Tweeter	25mm	25mm	25mm
Amplifier Power	30-120W	30-120W	30-120W
A/V Shield	yes	yes	yes
Nominal Impedance	4 Ohms	4 Ohms	4 Ohms
Sensitivity (2.83V @ 1M)	84dB	87dB	84dB
Frequency Range at -6dB	85 Hz – 24 kHz	85 Hz – 24 kHz	85 Hz – 24 kHz
Crossover Frequency	3.3 kHz	2.6 kHz	3.3 kHz
Dimensions: H x W x D (mm)	130 x 1030 x 105
