Meridian Introduces New Digital Media System - Media Core 600

A Complete Meridian Sooloos Multi-Zone Solution in a Single, Rack-Mountable Case

Meridian Audio has announced the introduction of the **Media Core 600 Sooloos Digital Media System**.

Meridian Sooloos offers the world's most advanced Digital Media Systems, storing your music library in pristine lossless quality, and allowing access to your entire collection anywhere you need it. The new Media Core 600 is the most powerful and comprehensive product to join this category, providing system core, storage, and multi-zone rendering – essentially a complete Meridian Sooloos multi-zone solution – in a single, rack-mountable case.

At the heart of Media Core 600 lies the most powerful Sooloos system core to date. Incorporating a pair of 2TB hard disk drives configured as a RAID 1 array Media Core 600 provides enough primary storage for around 5000 CD albums, and always maintains an automatic mirrored copy of your complete collection.

Media Core 600 is feature rich all-in-one solution that combines a new and powerful system core, integrated storage, and six audio end-points, each with a host of high quality audio outputs enabling easy connection across an entire house or project. Housed in a brand new case design, Media Core 600 incorporates an advanced switch-mode power supply and highly efficient cooling system, both of which make rack-mounting and operation easier and more reliable.

Key Points for Editors

- Media Core 600 not only stores and manages your entire digital music collection but, when connected to the internet it also provides easy access to thousands of internet radio stations, plus streamed music services from Rhapsody (where available).
- Media Core 600 connects easily to a range of control options including wirelessly to the free Sooloos App for iPad, iPhone and iPod Touch.
- Connect Media Core 600 to any of Meridian's DSP Loudspeakers – from the in-wall DSP420 to the Reference DSP8000 – to create an all Meridian, fully digital, distributed audio system.
- Media Core 600 incorporates six high-performance audio end-points, each with a full suite of Meridian's audio enhancing DSP, plus diverse connectivity that allows connection in to almost any audio system.
- Network Media Core 600 with any other Meridian Sooloos products to build and expand the system as your requirements dictate.

Meridian Media Core 600 Sooloos Digital Media System

About Meridian Audio Limited

Meridian is based near Cambridge, UK, and was founded in 1977 by Bob Stuart and Allen Boothroyd. With over 30 years' history of innovation and development of uncompromised consumer home entertainment systems offering exceptional performance, this award-winning company is widely recognized as a world leader in high-quality audio and video reproduction. Meridian developed the first audiophile CD player, the world's first consumer digital surround controller, and the MLP lossless packing system included in Blu-ray Disc. The company's optical disc players, DSP-based loudspeakers, video projectors, and scalars are unique in the industry, maintaining a super-quality digital signal throughout the path from the studio to the home, using advanced digital signal processing to deliver both a sweet, natural sound and smooth, crystal-sharp images with true cinematic realism. In late 2008, Meridian acquired leading networked media server developer Sooloos, and today the Meridian Sooloos Digital Media System offers a unique combination of superb digital audio quality with the world's most innovative, flexible and intuitive touchscreen-based home entertainment system.
