

Meridian Sooloos for iPad: Quick Guide

August 2015

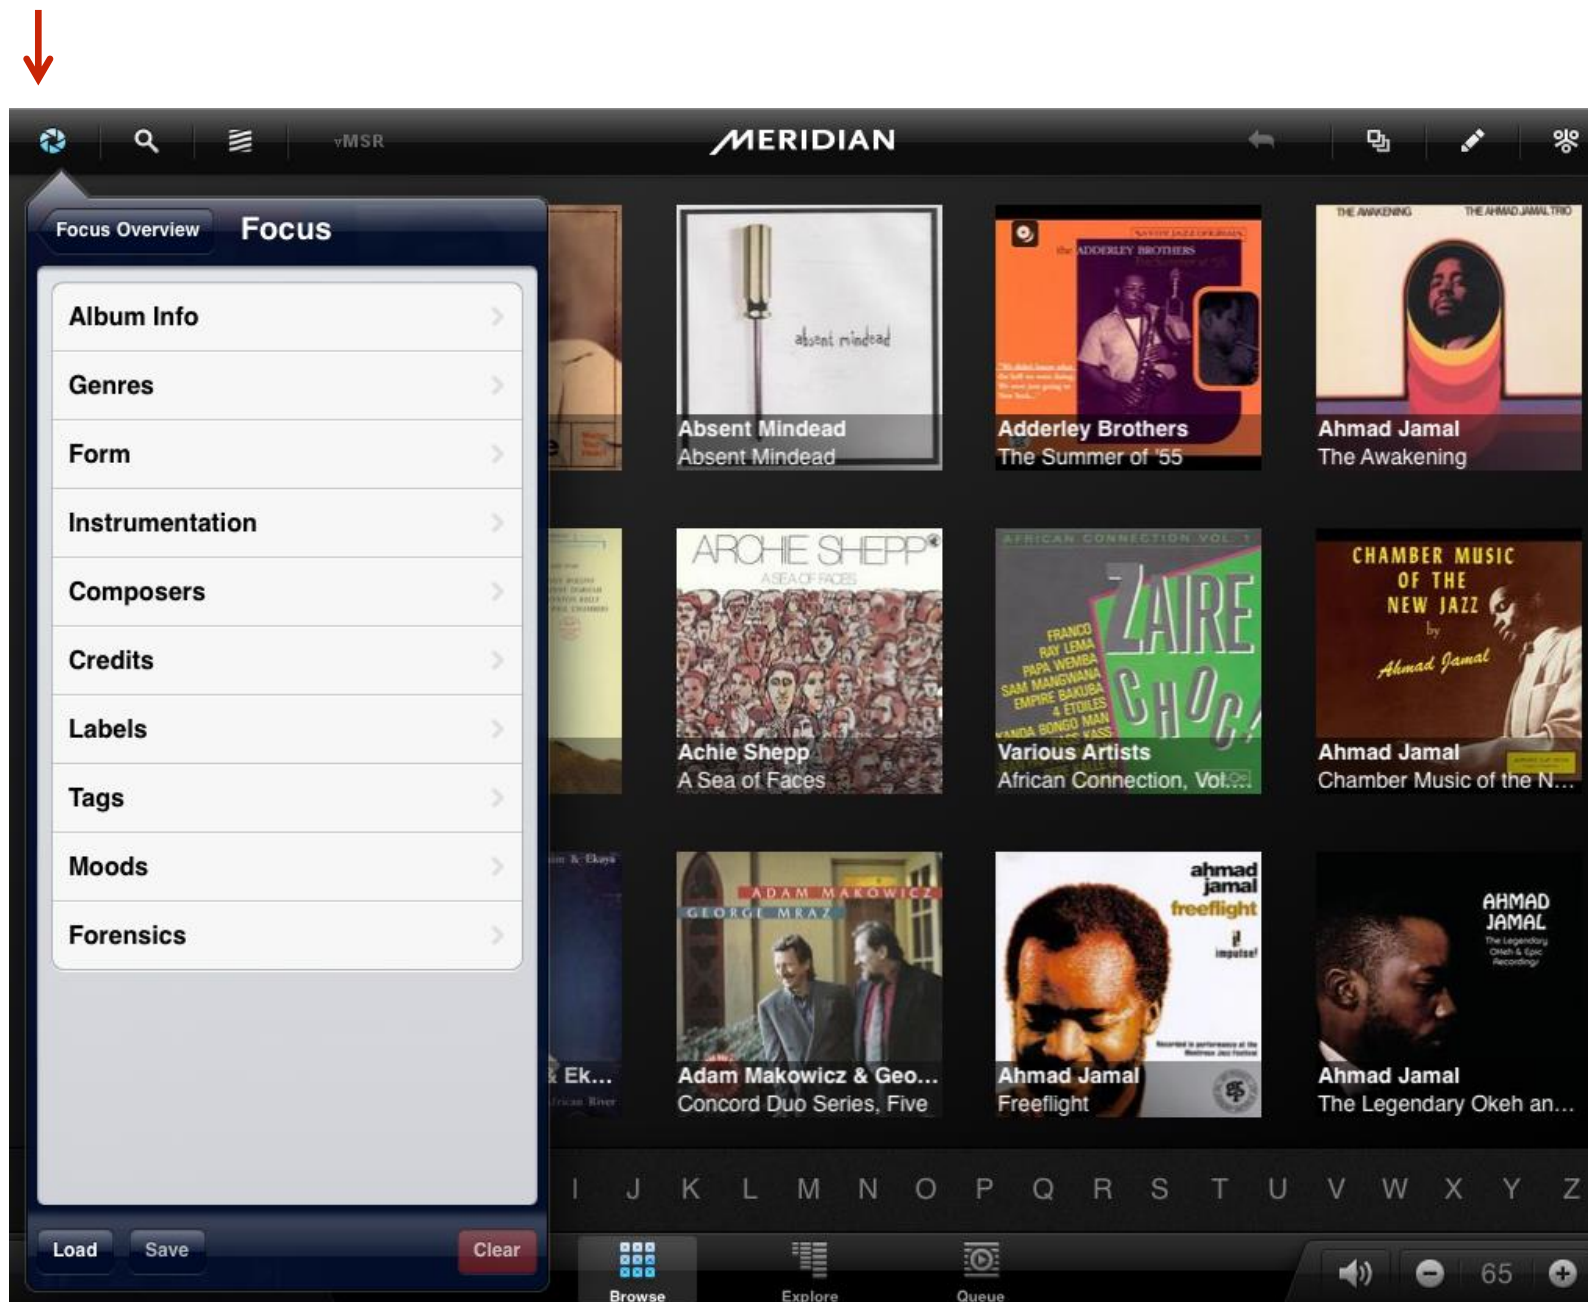

This is the **Cover Browse** screen. Swipe left or right with your finger to navigate through all your content.

Touch an album cover to bring up the album information page.

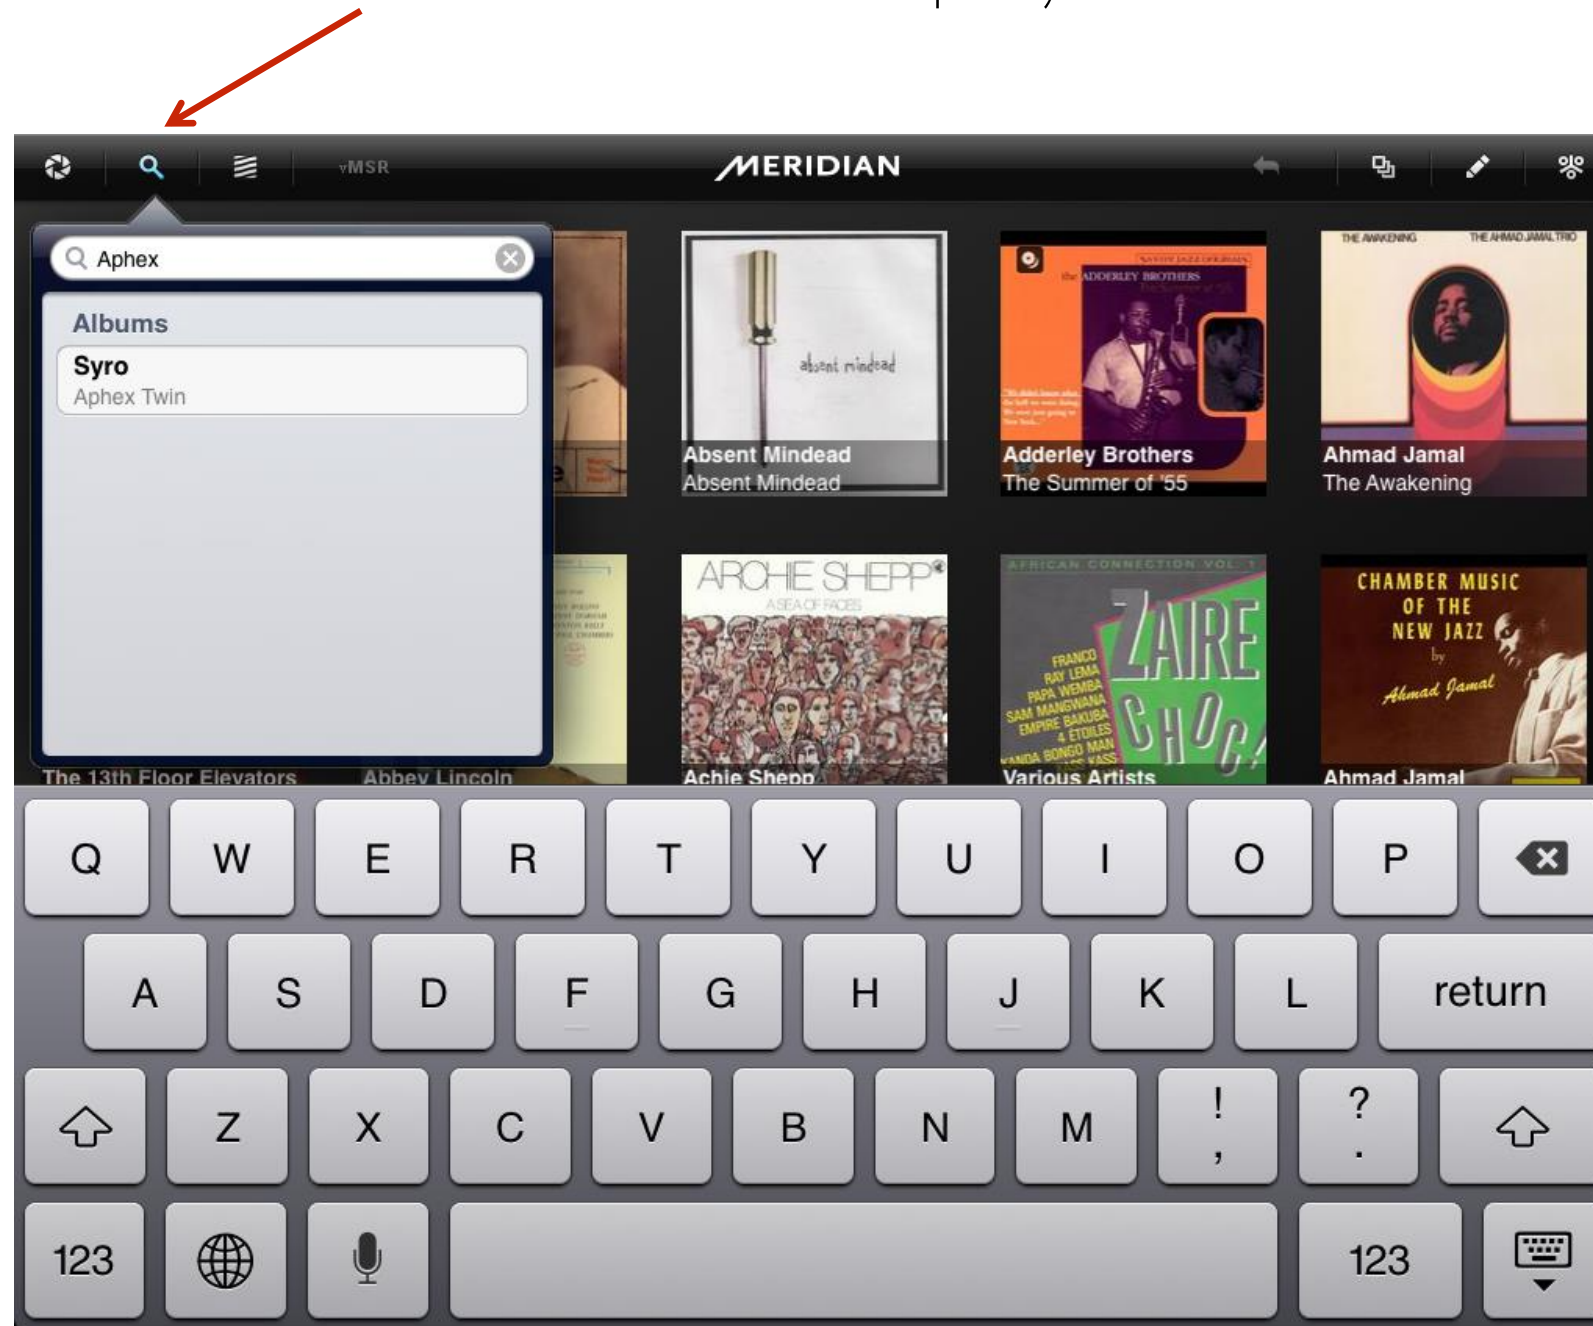

Use **Focus** to narrow down your collection based on a combination of criteria.

You can save custom focuses and load them at a later time.

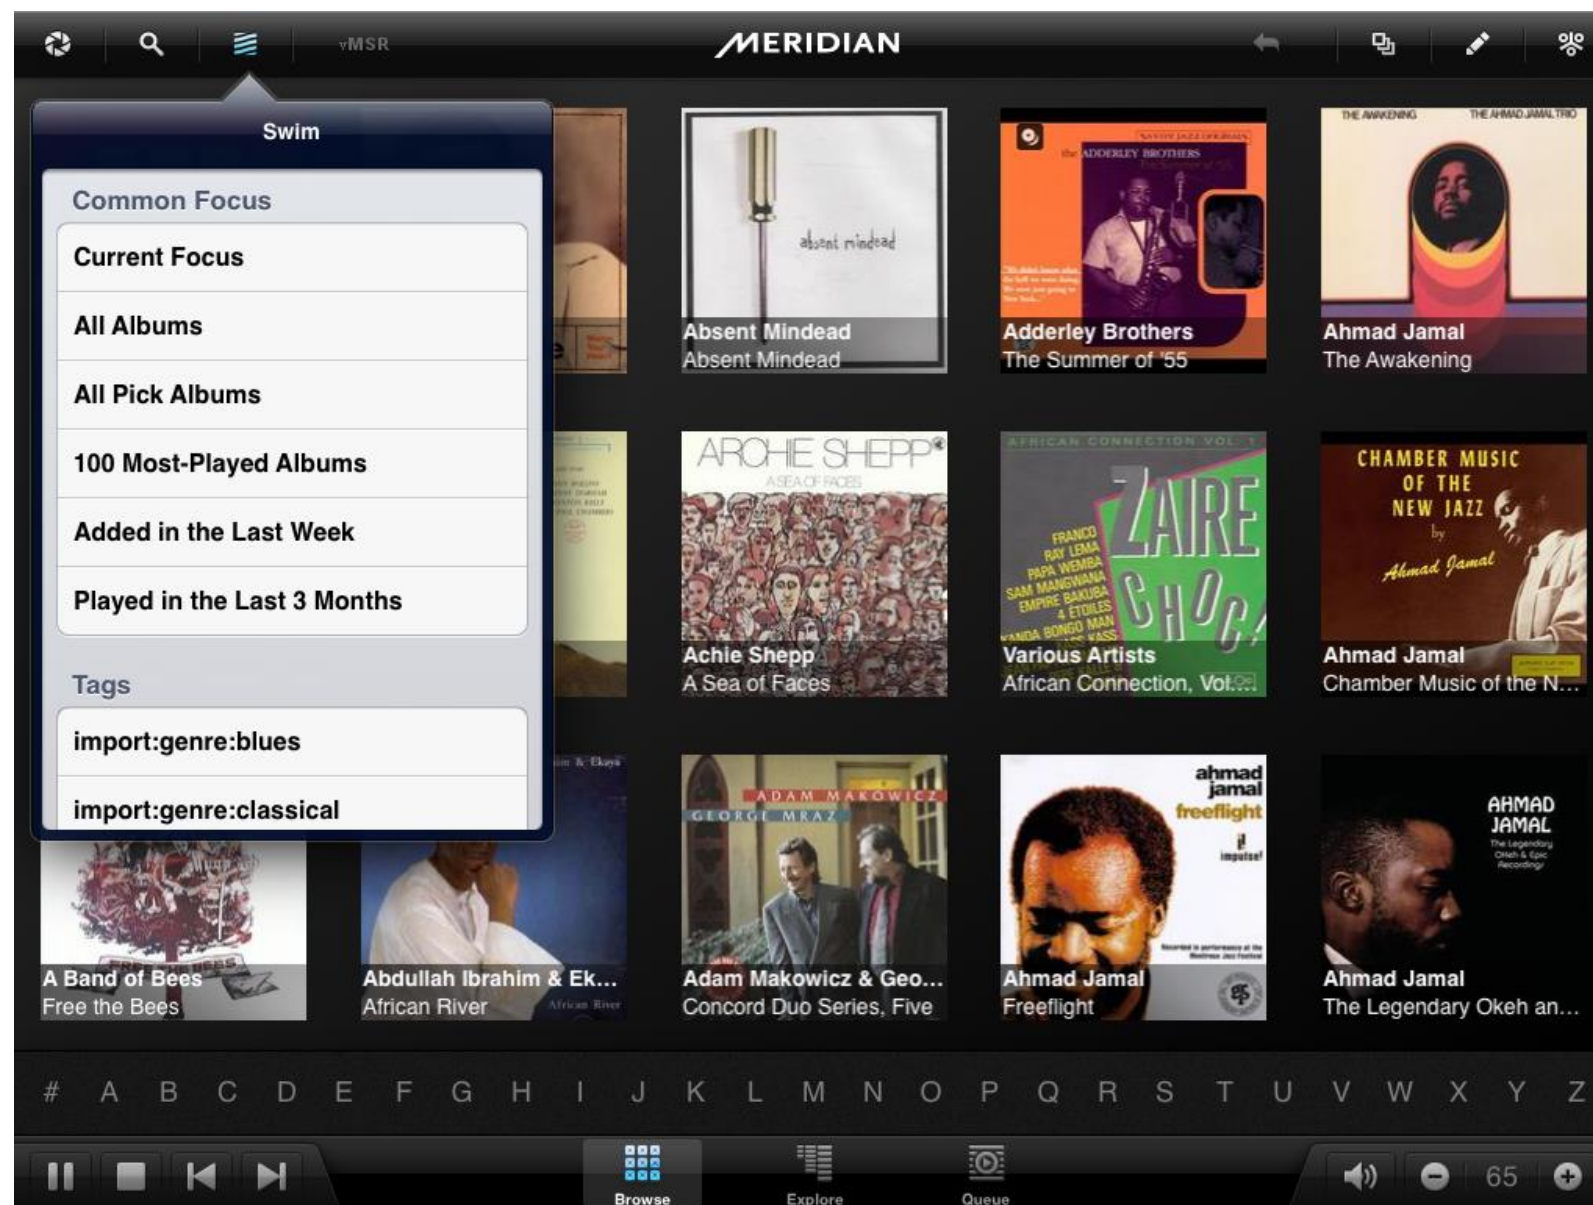

Looking for a specific artist or album? Use the **Search** function to find them quickly!

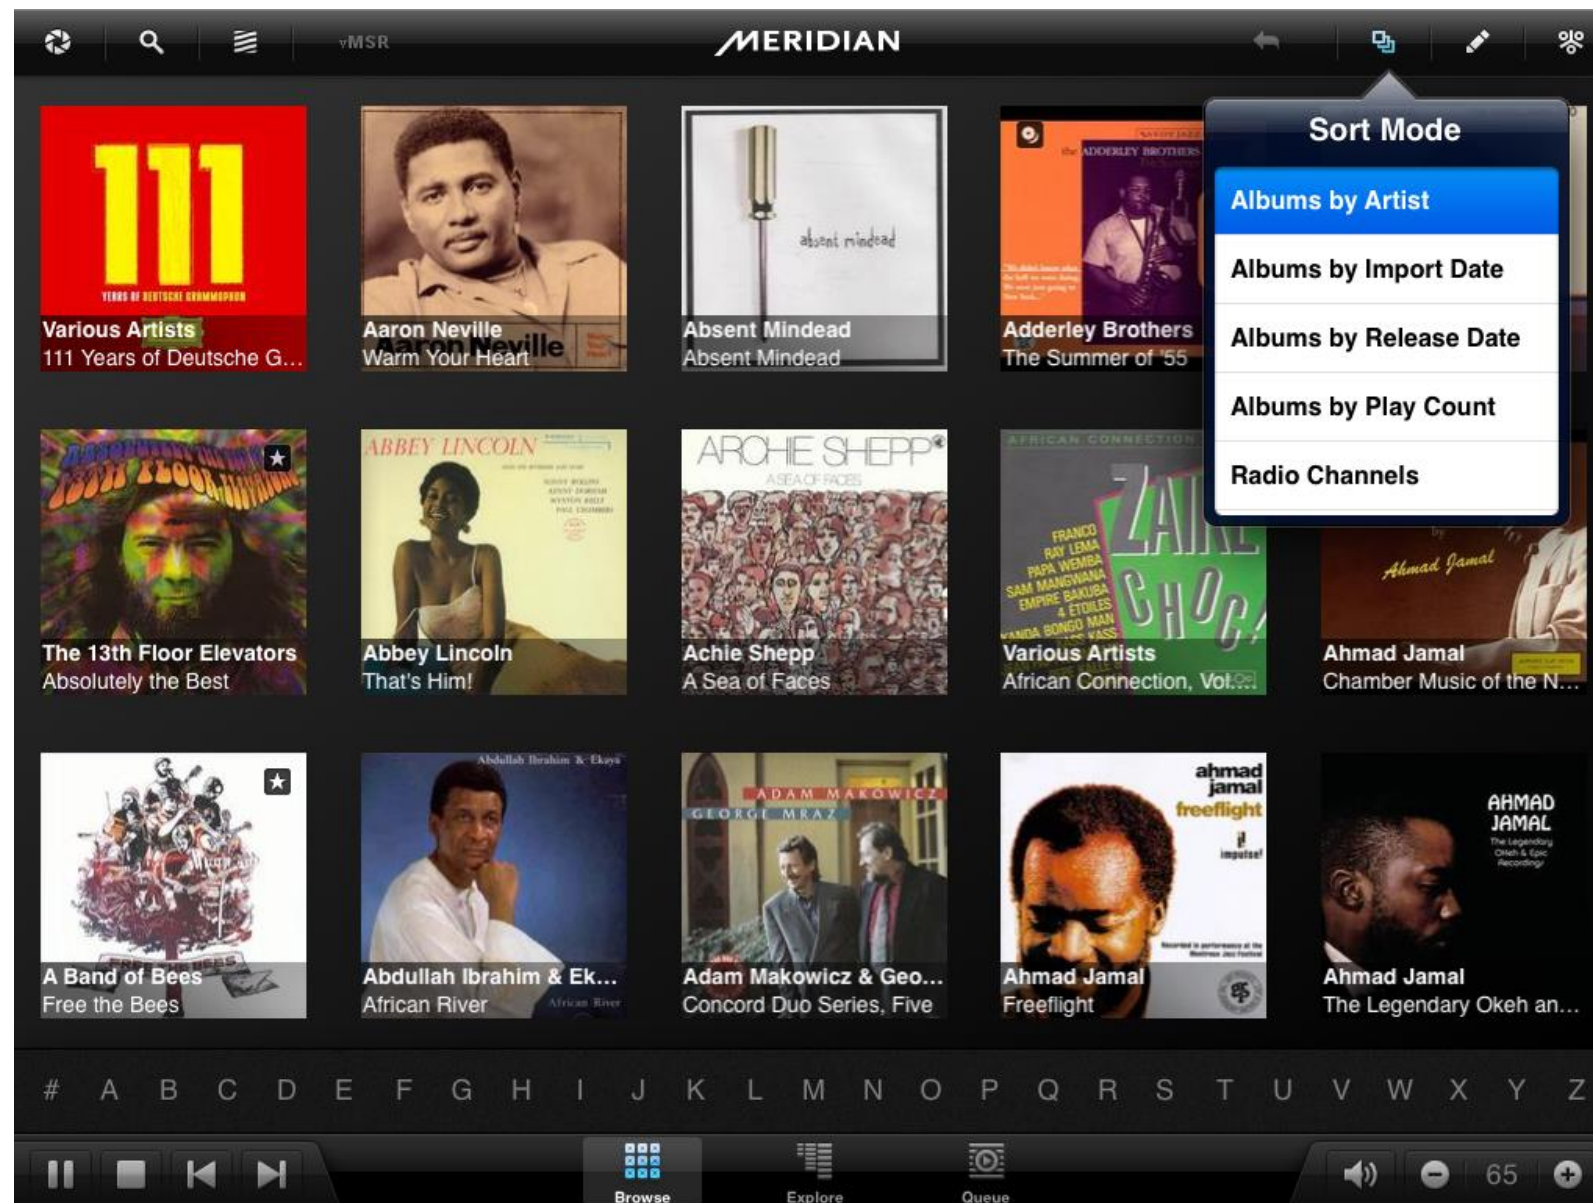

Swim automatically and intelligently generates a play queue, using tracks from of a selected pool of albums.

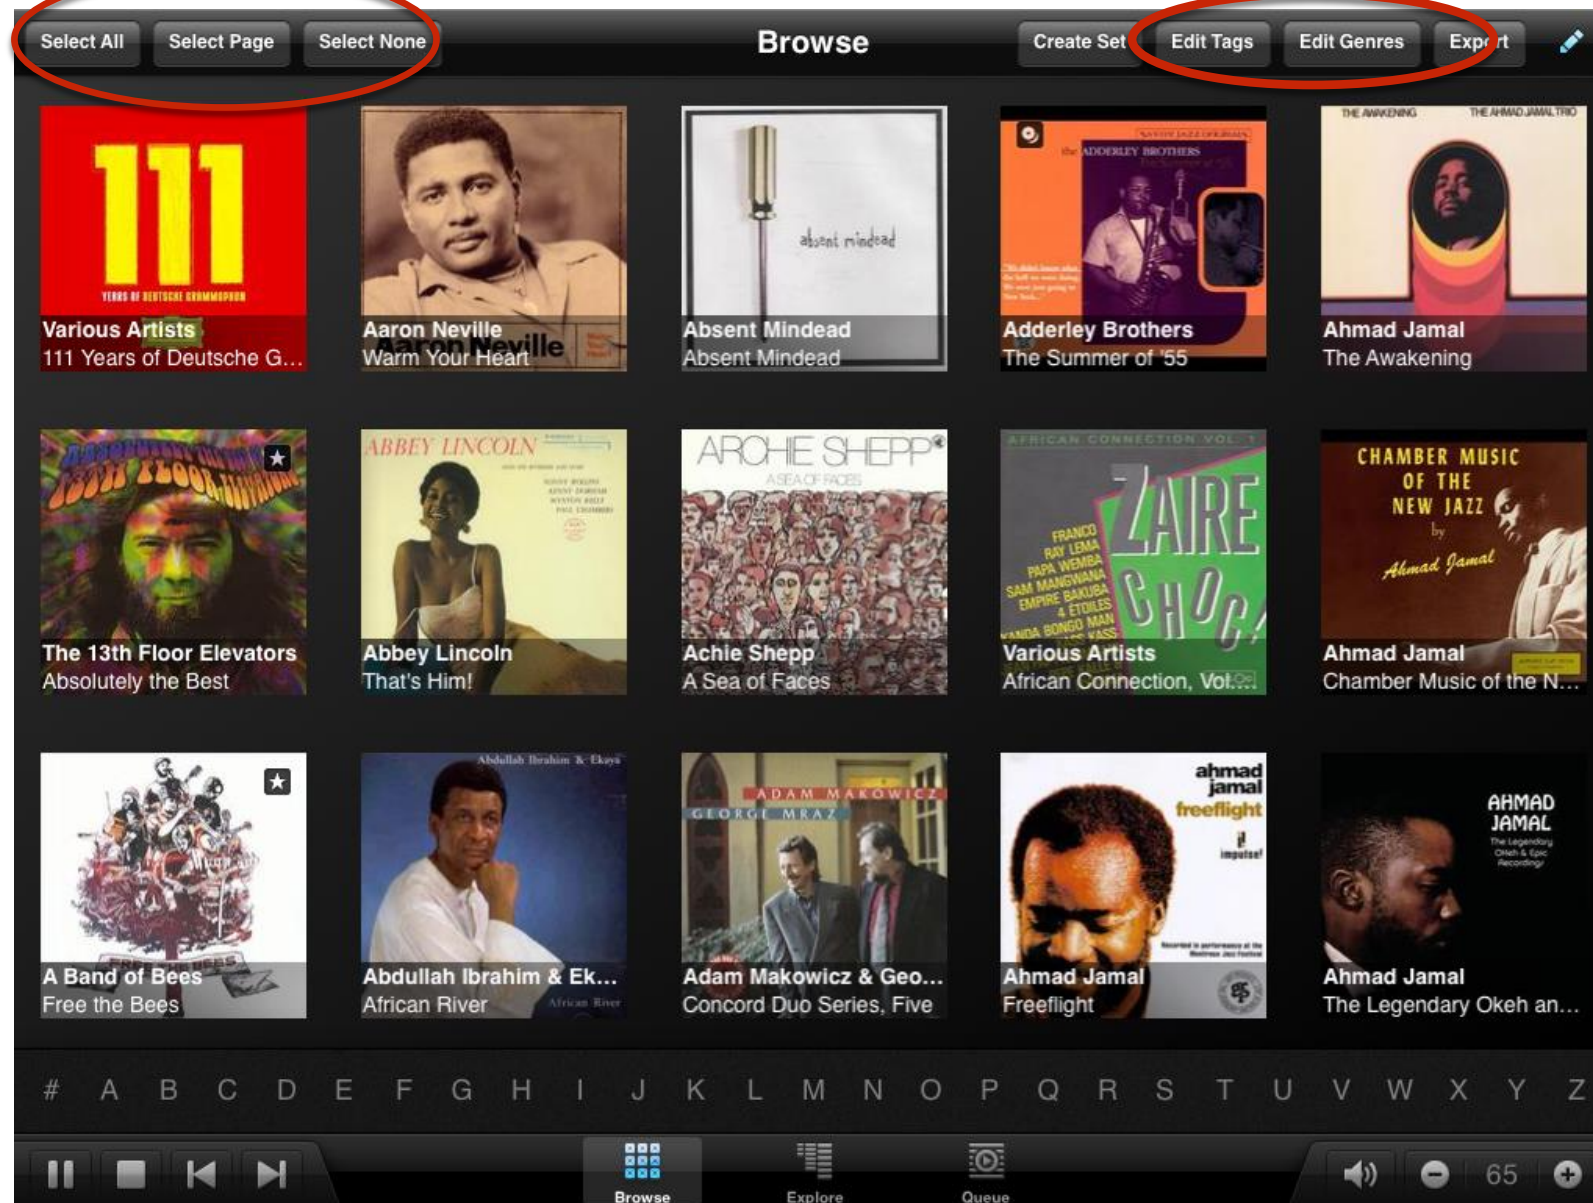

Swim through your current Focus, favorite albums, recently imported content, custom tags, and more.

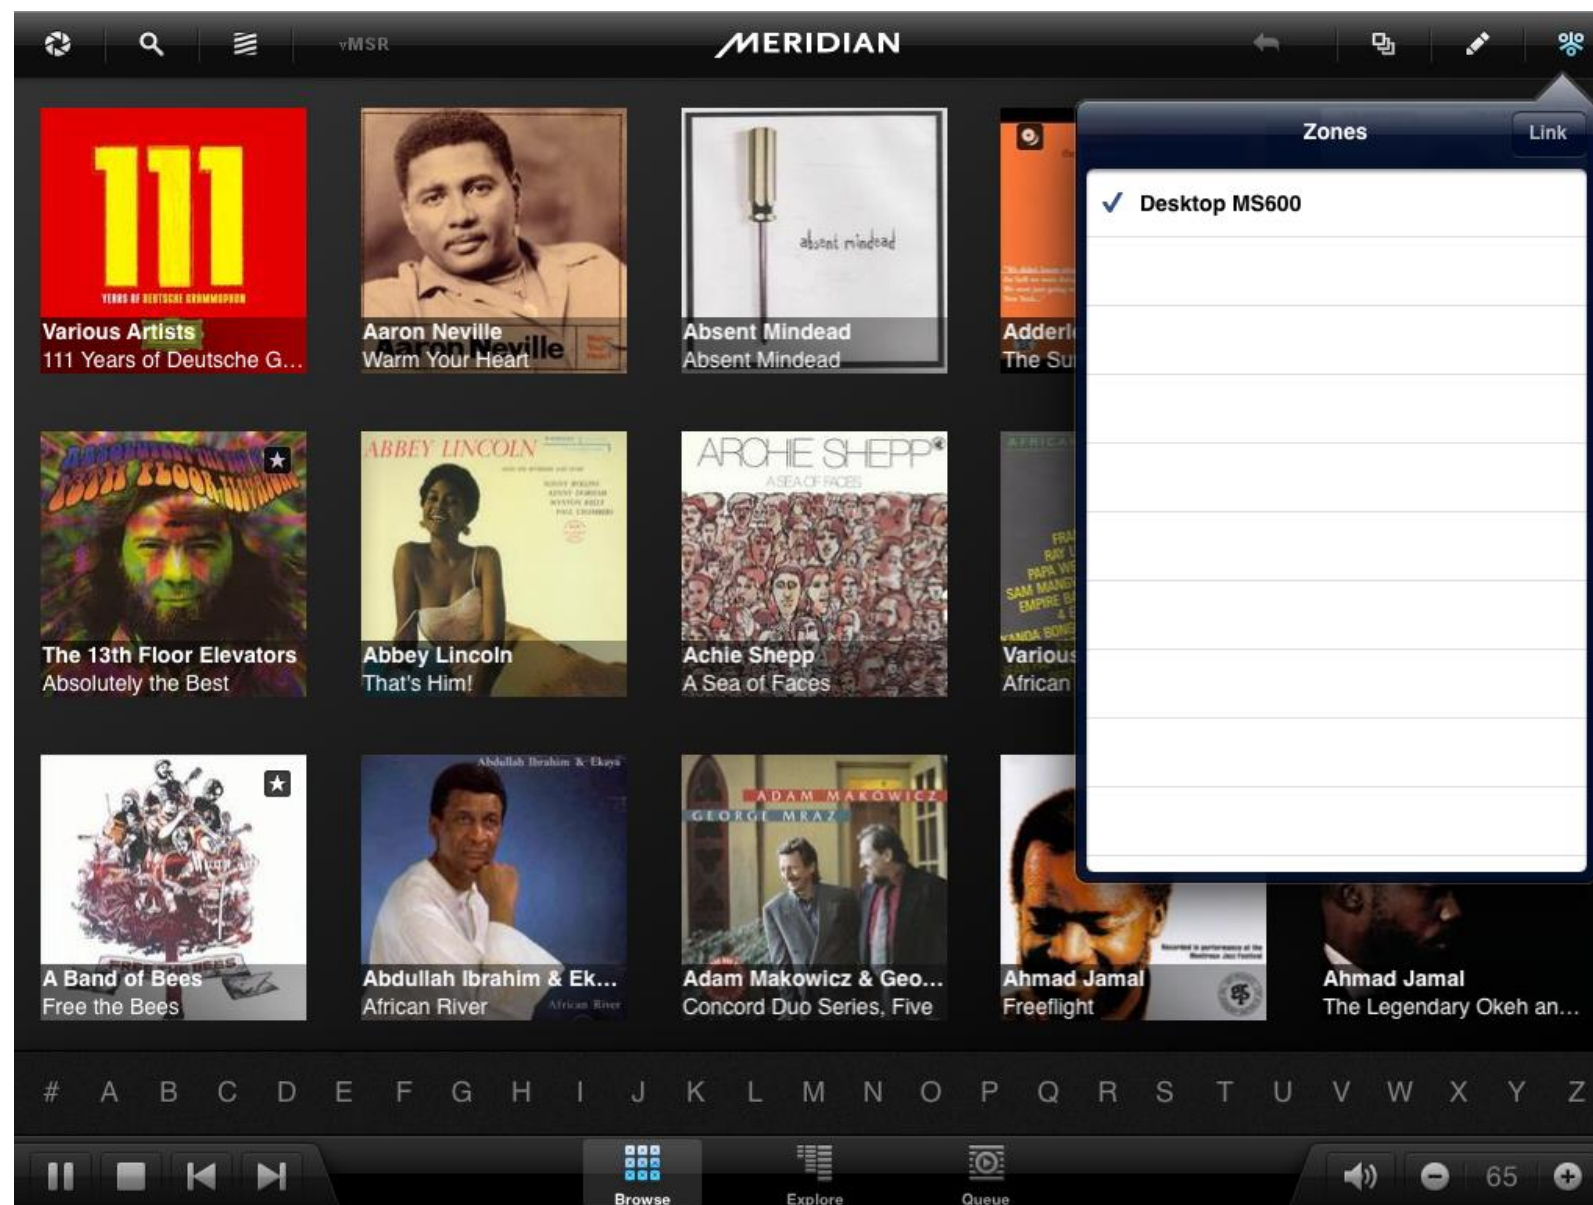

Sort your collection based on artist name, import date, play count, and other criteria to speed up your browsing experience.

Use Select and Edit mode to perform bulk operations, such as editing tags, genres, and combining albums into sets.

Have multiple zones in your Sooloos system?
Use the zone menu to quickly switch between,
manage the play queue, and adjust volume for
each.

Touch on an album to bring up the **Album Information** page.

View track names, genres, credits, and other information; add individual tracks, favorite tracks, or all tracks from the album to the play queue.

Browse **Aphex Twin - Syro (2014)**
