

9L Active

Digital Amplification Loudspeaker System

Elegant yet feature-packed, with a dynamic and detailed sound, this compact two-way active speaker system* incorporates high-quality digital amplification – 60W per speaker – plus a range of plug-and-play connectivity options, including mini-jack, RCA phono and USB. Whether your source is analogue or digital – from traditional hi-fi components to PCs and portable devices – the Quad 9L Active plays music in style.

* Supplied with a remote control and optional table stand. Available in a range of pearlescent and metallic high-gloss piano finishes in shades of Yellow Moon, Yellow Green, Pink Blush, Red Ruby, Purple Lilac, Blue Sky, Gray Tungsten and Deep Black.
