Quad Interconnects

Quad has always been synonymous to high performance audio products featuring outstanding engineering combined with sound technical design. The technology and quality standards applied to Quad interconnects are the finest available. Be astonished by the level of refinement achievable with these interconnects. They will significantly enhance your system's sonic performance, creating the closest approach to real sound.

QUAD

the closest approach to the original sound

MODEL & SPECIFICATIONS

QA-900

Performance Analogue Interconnect

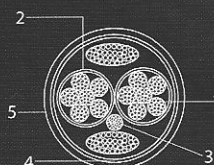

Custom-designed using a twisted pair, diameter round cable; Terminated with high flux, low noise, gold-plated twist-lock RCA connectors with gold-plated outer shield construction for maximum signal integrity; Uses two (2) Oxygen-Free, High Purity Copper (OFHC) conductors reinforced with an aluminium foil wrap

Recommended for all kinds of analogue connections: Phono stage, CD/DVD Players, FM Tuners, Stereo Amplification Systems

Available Lengths:

1.5m, 2.0m, 3.0m

Section Drawing:

1. Center Conductor Material OFC
2. S. Foil
3. Ground
4. Cotton Yarn
5. Outer Jacket 80P PVC

Connector/s:

QD-900

Performance Digital Interconnect

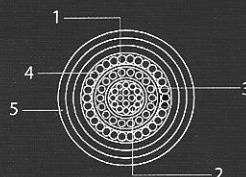

Triple-shielded and terminated with gold-plated twist-lock contacts with RCA to RCA connections; Uses 100% Oxygen-Free, High Purity Copper (OFHC) multi-strand centre conductor with uniform charging, tight impedance and strong protection

Recommended for high speed coaxial digital audio connections: CD / DVD / DAC Digital Output

Available Lengths:

1.5m, 2.0m, 3.0m

Section Drawing:

1. Center Conductor Material OFC
2. Insulation Foam PE
3. Filler D. Foil
4. Inner Jacket 80 PVC
5. Outer Jacket 80P PVC

Connector/s:

QL-900

Performance Loudspeaker Cable

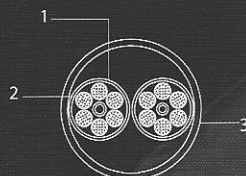

Excellent dielectric properties resulting in high bandwidth audio direct from the source; Uses two (2) multi-section wires with an Oxygen-Free, High Purity Copper (OFHC) conductor core and terminated with high precision 4mm gold-plated (OFHC) Twist-lock banana plugs for excellent security and seamless connectivity

Recommended for high fidelity loudspeaker connections: Integrated, Stereo Power Amplifier and Multi-Channel Amplification Systems

Available Lengths:

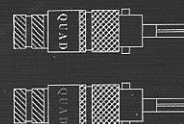

3.0m

Section Drawing:

1. Center Conductor Material OFC
2. Insulation HDPE
3. Outer Jacket PVC

Connector/s:
