Technical Note TN24

31st July 2009

Integrating Sooloos Control 10 with a G-series Controller

If the Controller has not been configured using a version of the Meridian set-up program featuring the Control 10 as a source, then it is necessary to use the front-panel set-up Wizard in order to allow the system to pass control-commands to the Control 10.

1. With the unit in Standby, press **More**...

2. Followed by **Wizard**...

3. **Skip** the "Reset settings" section...

4. **Skip** the "Select speakers" section...

5. **Enter** "Configure sources"...

6. Use the **Source** key to scroll to "Aux"...

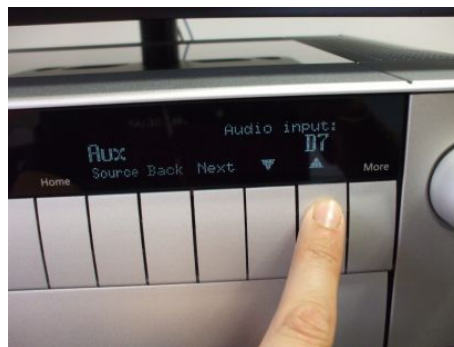

Page 2/2

7. Press **Next** to reveal “Audio Input”...

8. Use **Λ** and **V** to select the relevant input...

9. Press **Next** until the Comms type is revealed...

10. Use **Λ** and **V** to select “4C”...

11. Press **On/Off** to save the new settings...
